Springer International

Oecologia

Derived from *"Zeitschrift für Morphologie und Ökologie der Tiere", Oecologia* was founded in 1968, volumes (1968–1982), and edited by H. Remmert. As of volume 53 (1982) the journal has been edited by both H. Remmert and E.-D. Schulze. As of volume 81 (1989) the journal has been edited by J.R. Ehleringer, Salt Lake City; C.H. Peterson, Morehead City; H. Remmert, Marburg; E.-D. Schulze, Bayreuth. As of volume 83 (1990) the journal has been edited by J.R. Ehleringer, Salt Lake City; C.H. Peterson, Morehead City; M. Schaefer, Göttingen; E.-D. Schulze, Bayreuth.

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA: Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US $0.20 per page, or a minimum of US $1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0029-8549, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents

Abrams MD → Kubiske ME
Anderson DB → Björkman C
Andrew NL, Jones GP: Patch formation by herbivorous fish in a temperature Australian kelp forest 57
Apriyanto D, Potter DA: Pathogen-activated induced resistance of cucumber: response of arthropod herbivores to systemically protected leaves 25
Arsuffi TL → Newell SY

Back H: Epidermal uptake of Pb, Cd, and Zn in tubificid worms 226
Ball E → Franco AC
Barbosa P → Krischik VA
Barker GM: Biology of slugs (Agriolimacidae and Arionidae: Mollusca) in New Zealand hill country pastures 581
Bauwens D → Castilla AM
Berntson GM, Weiner J: Size structure of populations within populations: leaf number and size in crowded and uncrowded *Impatiens pallida* individuals 327
Berthold P → Terrill SB
Bilger W → Gamon JA
Bingley M → Shorrocks B
Björkman C, Anderson DB: Trade-off among antiherbivore defences in a South American blackberry (*Rubus bogotensis*) 247
Björkman O → Gamon JA
Bodmer RE: Influence of digestive morphology on resource partitioning in Amazonian ungulates 361
Boecklen WJ, Price PW: Nonequilibrial community structure of sawflies on arroyo willow 483
Boecklen WJ, Spellenberg R: Structure of herbivore communities in two oak (*Quercus spp.*) hybrid zones 92
Boevé J-L: Gregariousness, field distribution and defence in the sawfly larvae *Croesus varus* and *C. septentrionalis* (Hymenoptera, Tenthredinidae) 440
Boot RGA, Dubbelden KC den: Effects of nitrogen supply on growth, allocation and gas exchange characteristics of two perennial grasses from inland dunes 115
Borges RM: Sexual and site differences in calcium consumption by the Malabar Giant Squirrel *Ratufa indica* 80
Bothwell ML → Scrimgeour GJ
Bradley PM, Morris JT: The influence of salinity on the kinetics of NH_4^+ uptake in *Spartina alterniflora* 375
Breman H → Elberse WTh

Carr DE: Sexual dimorphism and fruit production in a dioecious understory tree, *Ilex opaca* Ait 381
Carson WP, Peterson CJ: The role of litter in an old-field community: impact of litter quantity in different seasons on plant species richness and abundance 8
Castilla AM, Bauwens D: Thermal biology, microhabitat selection, and conservation of the insular lizard *Podarcis hispanica atrata* 366
Clark BD → Hart DD
Comstock JP → Smedley MP
Cook CS → Smedley MP
Cross DJ → Wainhouse D
Culp JM → Scrimgeour GJ

Dawson TE, Ehleringer JR: Ecological correlates of seed mass variation in *Phoradendron juniperinum*, a xylem-tapping mistletoe 332
Dawson TE → Geber MA
Dawson TE → Smedley MP
